SET 1810

ghs strings / battle creek / michigan

Manufactured by
G.H.S. Corporation
(The String Specialists)
2813 Wilber Avenue
Battle Creek, MI 49037
U.S.A.

Semi-flat nickel strings combine the clear, bright sound of roundwounds with the smooth lingering of flatwounds. Excellent for precise intonation and longer life, they are made of pure nickel round wire flattened in the winding process. GHS' electric strings are wound on special process round core wire for extra volume and sustain.

For even louder, brighter sound ask for GHS Boomers or Dynamic Alloy Sets. For smoother feel, mellow tone, ask for GHS Precision Flatwounds.

FIRST	012	FOURTH	030
SECOND	016	FIFTH	044
THIRD	N24	SIXTH	054
